We Lead to Possibilities Beyond Connection

PT. Seo Heung Indoraya

SHC SEO HEUNG INDORAYA Indonesia

We have supported Indonesia's manufacturing industry with integrated purchasing, MRO supply and bonded logistics **since 2011**.

Company profile

Date of establishment	March 2011 — founded as PT. Seo Heung Trading Indonesia Renamed PT. Seo Heung Indoraya (SHC Indonesia)
Group & network	Seoheung Co., Ltd (est. 2004) · Changshin Group Operating network across Korea · Vietnam · Indonesia · Taiwan
Biz license	PDPLB — licensed bonded logistics centre operation (Pusat Logistik Berikat) 39 trading licences · import–export & intermediary trade
Scale of business	21 partner clients · 100+ brands represented 3 business areas — material purchasing, mold / injection supply, equipment & spare
Logistics	PDPLB bonded warehouse 1,000 m² — Cikarang, Bekasi Head office & sales — Karawang, West Java (± 25 km from Cikarang)

Est. 2011 · 4 countries · 21 clients · 100+ brands · PDPLB licensed

> Backed by **Seoheung Co., Ltd** and the Changshin group, SHC combines Korean sourcing power with a local team in Karawang — **one accountable point of contact** for sourcing, bonded logistics and technical support.

T (0264) 7501003 **E** SHI_LocalLeader@shcglobal.co.kr **W** shc-indonesia.github.io

Head office & sales
Jl. Ir. H. Juanda No.8, RT.001 RW.005, Ds. Jomin Barat, Kota Baru, Karawang – Jawa Barat 41376

PDPLB bonded centre
Cikarang, Bekasi, Jawa Barat — 1,000 m², ± 40 km from Jakarta & ± 25 km from the head office

HOW WE WORK

Source
Makers reached through the group network and local suppliers.

Stock
Held under bond in Cikarang, duty deferred until dispatch.

Deliver
Scheduled delivery to the plant on an agreed cycle.

GLOBAL NETWORK

One group, four countries.

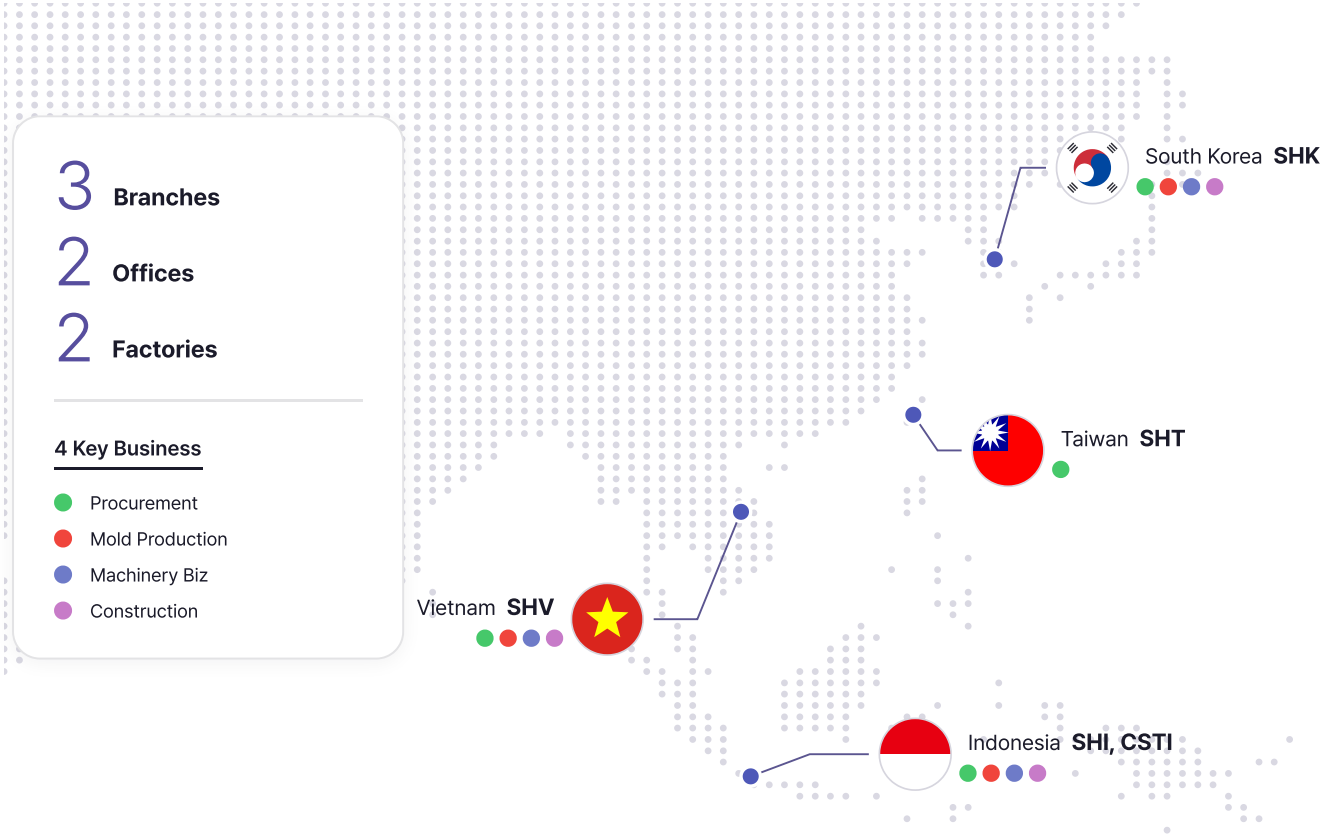

Korea · Vietnam · Indonesia · Taiwan — Korean parent sourcing power combined with a local team that answers on site.

1,000m²	15yrs	3
Bonded warehouse	In Indonesia	Service pillars

SHC Global Network

SHC SEO HEUNG INDORAYA Indonesia

Through our global network, we are establishing **global standards** in the manufacturing and distribution industries.

Taiwan SHT

5F-3, No.219, Minquan Rd., West Dist., Taichung City 403, Taiwan

> The Indonesian operation draws on the group's purchasing, tooling, machinery and construction capability across the network — **one network, one standard**.

Business Scope

Three service pillars sourced, supplied and managed as **one accountable channel** — so the plant deals with one partner instead of dozens of vendors.

01 Procurement & MRO

MRO distribution and sales through one integrated channel — consumables, spare parts, safety, office supplies, construction material and home appliances.

02 Integrated Trade

Import–export and intermediary trade — overseas makers sourced, cleared and delivered under one contract.

03 Bonded Logistics

A licensed PDPLB bonded zone — duty deferred until dispatch, bulk import and re-export handled on site.

THREE CONNECTED BUSINESS AREAS

01 Material Purchasing
Raw & sub-materials plus MRO consumables through one integrated agency.

02 Mold / Injection Supply
Tooling and injection parts supplied to manufacturing specification.

03 Equipment & Spare
Machinery, equipment and spare parts with intermediary trade support.

SECTORS WE SERVE

- Footwear manufacturing
- Chemicals & raw materials
- Tyre & rubber
- Logistics & cold-chain
- Automotive & parts
- Electronics & appliances

MAJOR CLIENTS

21 partner companies across footwear, chemicals, tyre, logistics and cold-chain rely on SHC for supply and service.

HOW WE SUPPORT THE LINE

01 · Spec & sample
Material spec confirmed against the brand's standard, samples arranged with the maker.

02 · Maker sourcing
Sourced through the group network in Korea, Vietnam and Taiwan — or locally when it is faster.

03 · Bonded import
Held at the PDPLB centre with duty deferred, released against the production plan.

04 · Delivery to line
Scheduled delivery to the plant, with claims and replacement on one channel.

WHY IT MATTERS

Raw material and MRO run on **the same channel**, so a plant that already buys uppers from SHC does not need a second supplier for the bearings, adhesive or safety shoes on the same line — one contract, one delivery schedule, one invoice.

Shoe Raw Materials — Full Item List

SHC SEO HEUNG INDORAYA Indonesia

Every upper and bottom item we hold and supply under the bonded facility — **240 upper materials** and **41 bottom chemicals**, listed in full.

Major MRO Products

SHC SEO HEUNG INDORAYA Indonesia

We supply the full range of subsidiary and consumable materials a plant needs to keep running — from **shoe raw materials** to **bearings, safety gear and construction materials**.

Industrial Consumables

- Abrasives & cutting discs
- Adhesives & sealants
- Lubricants & greases
- Tapes & industrial wipes
- Coatings & paints
- Welding consumables
- Cleaning & degreasing chemicals
- Fasteners, bolts & nuts
- Hoses, clamps & fittings
- Batteries & dry cells
- Cable ties & wiring accessories
- Filters (air, oil, fuel)
- Spray paints & aerosols
- Rust preventives & anti-seize
- Packaging & strapping

Industrial Spare Parts

- Bearings & power transmission
- Sensors & controllers
- Belts, chains & couplings
- Seals, gaskets & O-rings
- Motors & electrical parts
- Pneumatic & hydraulic parts
- Valves, pumps & actuators
- Gears, sprockets & pulleys
- Contactors, relays & switches
- Cables & connectors
- PLC & automation parts
- Inverters & drives
- Limit & proximity switches
- Bushings & linear guides
- Hydraulic hoses & fittings

Safety Equipment

- Helmets & head protection
- Gloves & protective wear
- Respirators & masks
- Safety shoes & harnesses
- Fire & first-aid equipment
- Eye & face protection
- Hearing protection
- High-visibility & workwear
- Fall-arrest & lanyards
- Gas detectors & monitors
- Safety signs & barriers
- Spill control & containment
- Lockout–tagout (LOTO)
- Emergency shower & eyewash
- Traffic cones & safety tapes

Office Supplies

- Writing & marking tools
- Paper & filing products
- Desk & organization items
- Printing consumables
- Office furniture
- Notebooks & sticky notes
- Staplers, punches & binders
- Whiteboards & markers
- Calculators & small electronics
- Envelopes & mailing supplies
- Adhesives, glue & tape
- Cutting tools
- Labels & label printers
- Cleaning & pantry supplies
- Toner & ink cartridges

Construction Materials

- Steel bars & profiles
- Cement & concrete products
- Plywood & timber
- Paints & coatings
- Sealants & waterproofing
- Roofing & cladding sheets
- Bricks, blocks & pavers
- Aggregates, sand & gravel
- Pipes & fittings (PVC/HDPE)
- Wire mesh & reinforcement
- Scaffolding & formwork
- Insulation materials
- Doors, frames & hardware
- Sanitary & plumbing ware
- Electrical conduit & fittings

Home Appliances

- Refrigerators & freezers
- Washing machines & dryers
- Air conditioners & fans
- Microwaves & ovens
- Water heaters & dispensers
- Vacuum cleaners
- Kitchen appliances
- Televisions & audio
- Small kitchen electronics
- Irons & garment care
- Air purifiers & humidifiers
- Coffee & beverage machines
- Water pumps
- Lighting & electrical fixtures
- Home security devices

BRANDS WE HANDLE — A SELECTION

≈ 32 kg · 1,100 W draw · air-cooled

Scan for video & spec

ECO LASER V-300LC 300 W

≈ 36 kg · 1,500 W draw · air-cooled

KEY PARAMETERS

Model	V-200LC	V-300LC
Laser output (average)	200 watt	300 watt
Wavelength		1064 nm
Pulse frequency		1 – 3000 kHz, adjustable
Machine weight	≈ 32 kg	≈ 36 kg
Supply		AC 110 / 220 V ±10 % · 50–60 Hz
Power consumption	1,100 watt	1,500 watt

V-100LC shares the same optical platform — full parameters on request.

WHAT IT CLEANS

Mould & tooling · Tyre moulds · Paint layers · Rust & oxide · Oil & grease · Weld seams · Release agent · Precision parts

· Non-contact — the base surface is never abraded

· No solvents or blasting media, waste is dry particulate

MACHINES RUNNING AT

Automation lines installed and supported at these plants.

YC TEC · Hankook driving emotion · HSK · Kumkang Tech Indonesia KTI · PT. Seng Dam Jaya Abadi (주)성담

Class IV laser — every unit ships with two pairs of certified goggles, pattern software and a 5 m cable, plus **on-site operator safety and maintenance training.**

02.

Purchasing Solution for Your Business

The outsourcing model, what it changes for a plant, and why MRO is the category that benefits most.

SHC SEO HEUNG INDORAYA Indonesia

We Lead to Possibilities Beyond Connection

A Specialist Purchasing Partner

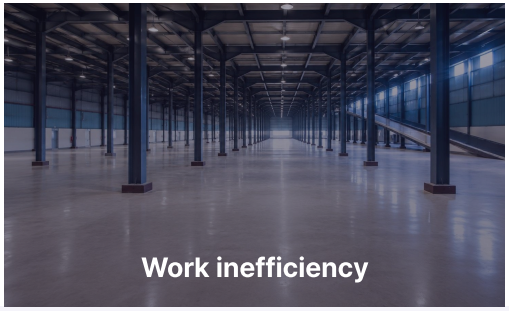

SHC SEO HEUNG INDORAYA Indonesia

As a purchasing solution partner rooted in West Java,
we work to **UPGRADE our clients' purchasing management** — not simply to sell parts.

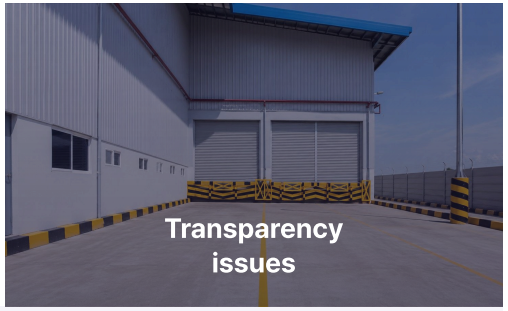

Before introduction of SHC's services

- Difficult to forecast raw-material market swings
- Purchase volume per item is too small to negotiate
- Quality falls when price alone drives the decision

- Expertise is pulled away from core tasks
- Heavy workload in ordering, closing and follow-up
- Low morale from repetitive low value-added work

- Indiscriminate item pre-entry, no standard codes
- Item database is hard to maintain
- Many suppliers, unclear price history

After introduction

"

Improved management efficiency through SHC's integrated MRO service

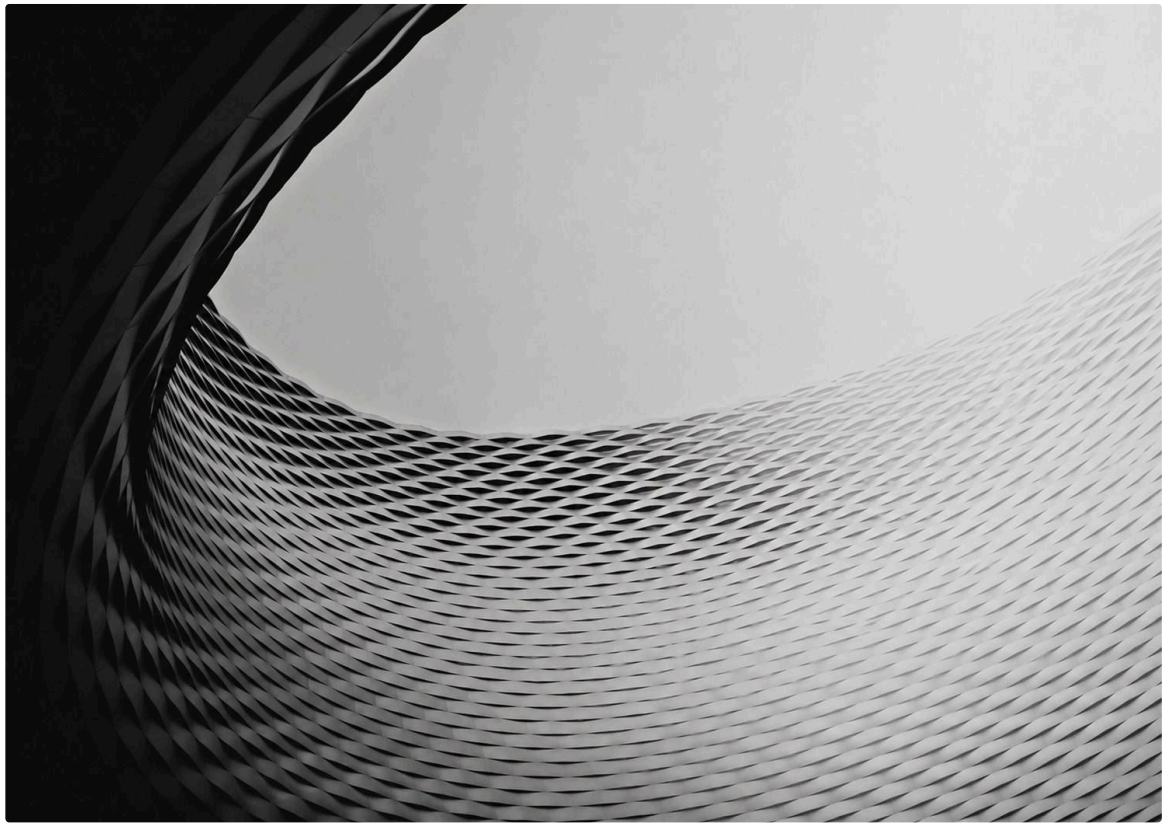

"

One partner, one price list, one invoice — with the purchasing team freed to work on strategic categories.

03.

Why SHC Indonesia

Cost, efficiency and transparency — the three places where an integrated purchasing partner is measured.

SHC SEO HEUNG INDORAYA Indonesia

We Lead to Possibilities Beyond Connection

Purchase Cost Reduction & Unification of Supplier Channels

We cut cost from a **Total Cost of Ownership** view — not just the unit price on the quotation. Process, purchasing and inventory are all part of what buying really costs.

Unifying supplier channels enables sourcing from excellent suppliers and **real efficiency in day-to-day MRO purchasing work**.

PURCHASE COST REDUCTION — TOTAL COST OF OWNERSHIP

▪ YOUR TOTAL COST

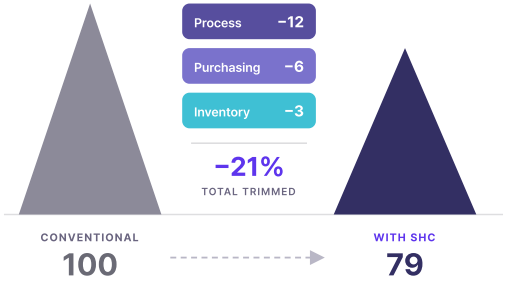

−21%

With SHC it drops **from 100 to 79** — not just cheaper parts, but the whole cost of buying.

≈20% of what you spend is MRO

1 partner for everything

What SHC trims from your total cost

CONVENTIONAL

Buying it all yourself

- × Dozens of scattered vendors
- × Imports handled case by case
- × High MRO inventory as safety stock
- × Risk with no single owner
- × Price history spread over many systems

WITH SHC

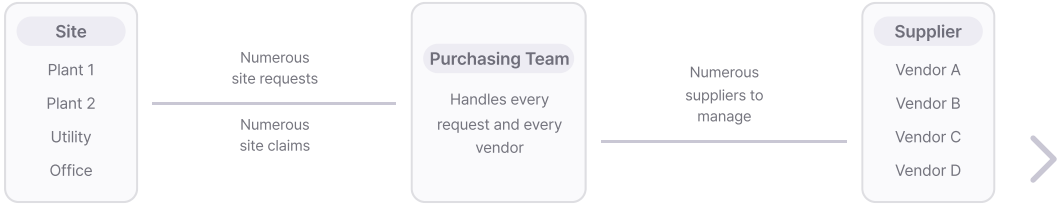

One integrated partner

- ✓ One partner, many suppliers consolidated
- ✓ Bonded logistics — faster clearance
- ✓ Local stocking — lower inventory cost
- ✓ Transparent pricing end to end
- ✓ Standardised item database

* Indicative model — actual savings confirmed after a spend review of the client's item history.

WORK EFFICIENCY — UNIFICATION OF SUPPLIER CHANNELS

AS-IS

Simple, repetitive work spent on suppliers

- · Mostly routine tasks — chasing quotes and site claims
- · Little time left for real purchasing strategy
- · Price and quality knowledge stays with individuals

TO-BE

Operation → Management

- · Purchasing team focuses on core, strategic categories
- · One channel for product enquiry, delivery, claims and service
- · Transparency between the ordering company and suppliers
- · Prices agreed in advance — no room for side arrangements

04.

Service Details

The bonded logistics centre behind the service — and what it changes for the plant.

SHC SEO HEUNG INDORAYA
Indonesia

PDPLB Bonded Logistics Centre

SHC SEO HEUNG INDORAYA Indonesia

Imported goods are held with **duty deferred until dispatch** — lowering upfront cost, speeding customs, and enabling bulk import and re-export from one licensed site.

Main road — PDPLB Cikarang

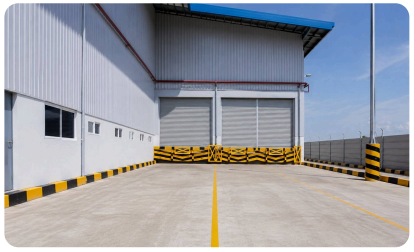

Licensed bonded zone entrance

Goods stored under bond

Handling & picking

Transit & staging area

Loading & dispatch bay

WHAT WE KEEP THE PLANT RUNNING ON

- **M** **Maintenance** — Planned, preventive upkeep
- **R** **Repair** — Urgent repair & recovery
- **O** **Operations** — Daily plant operations

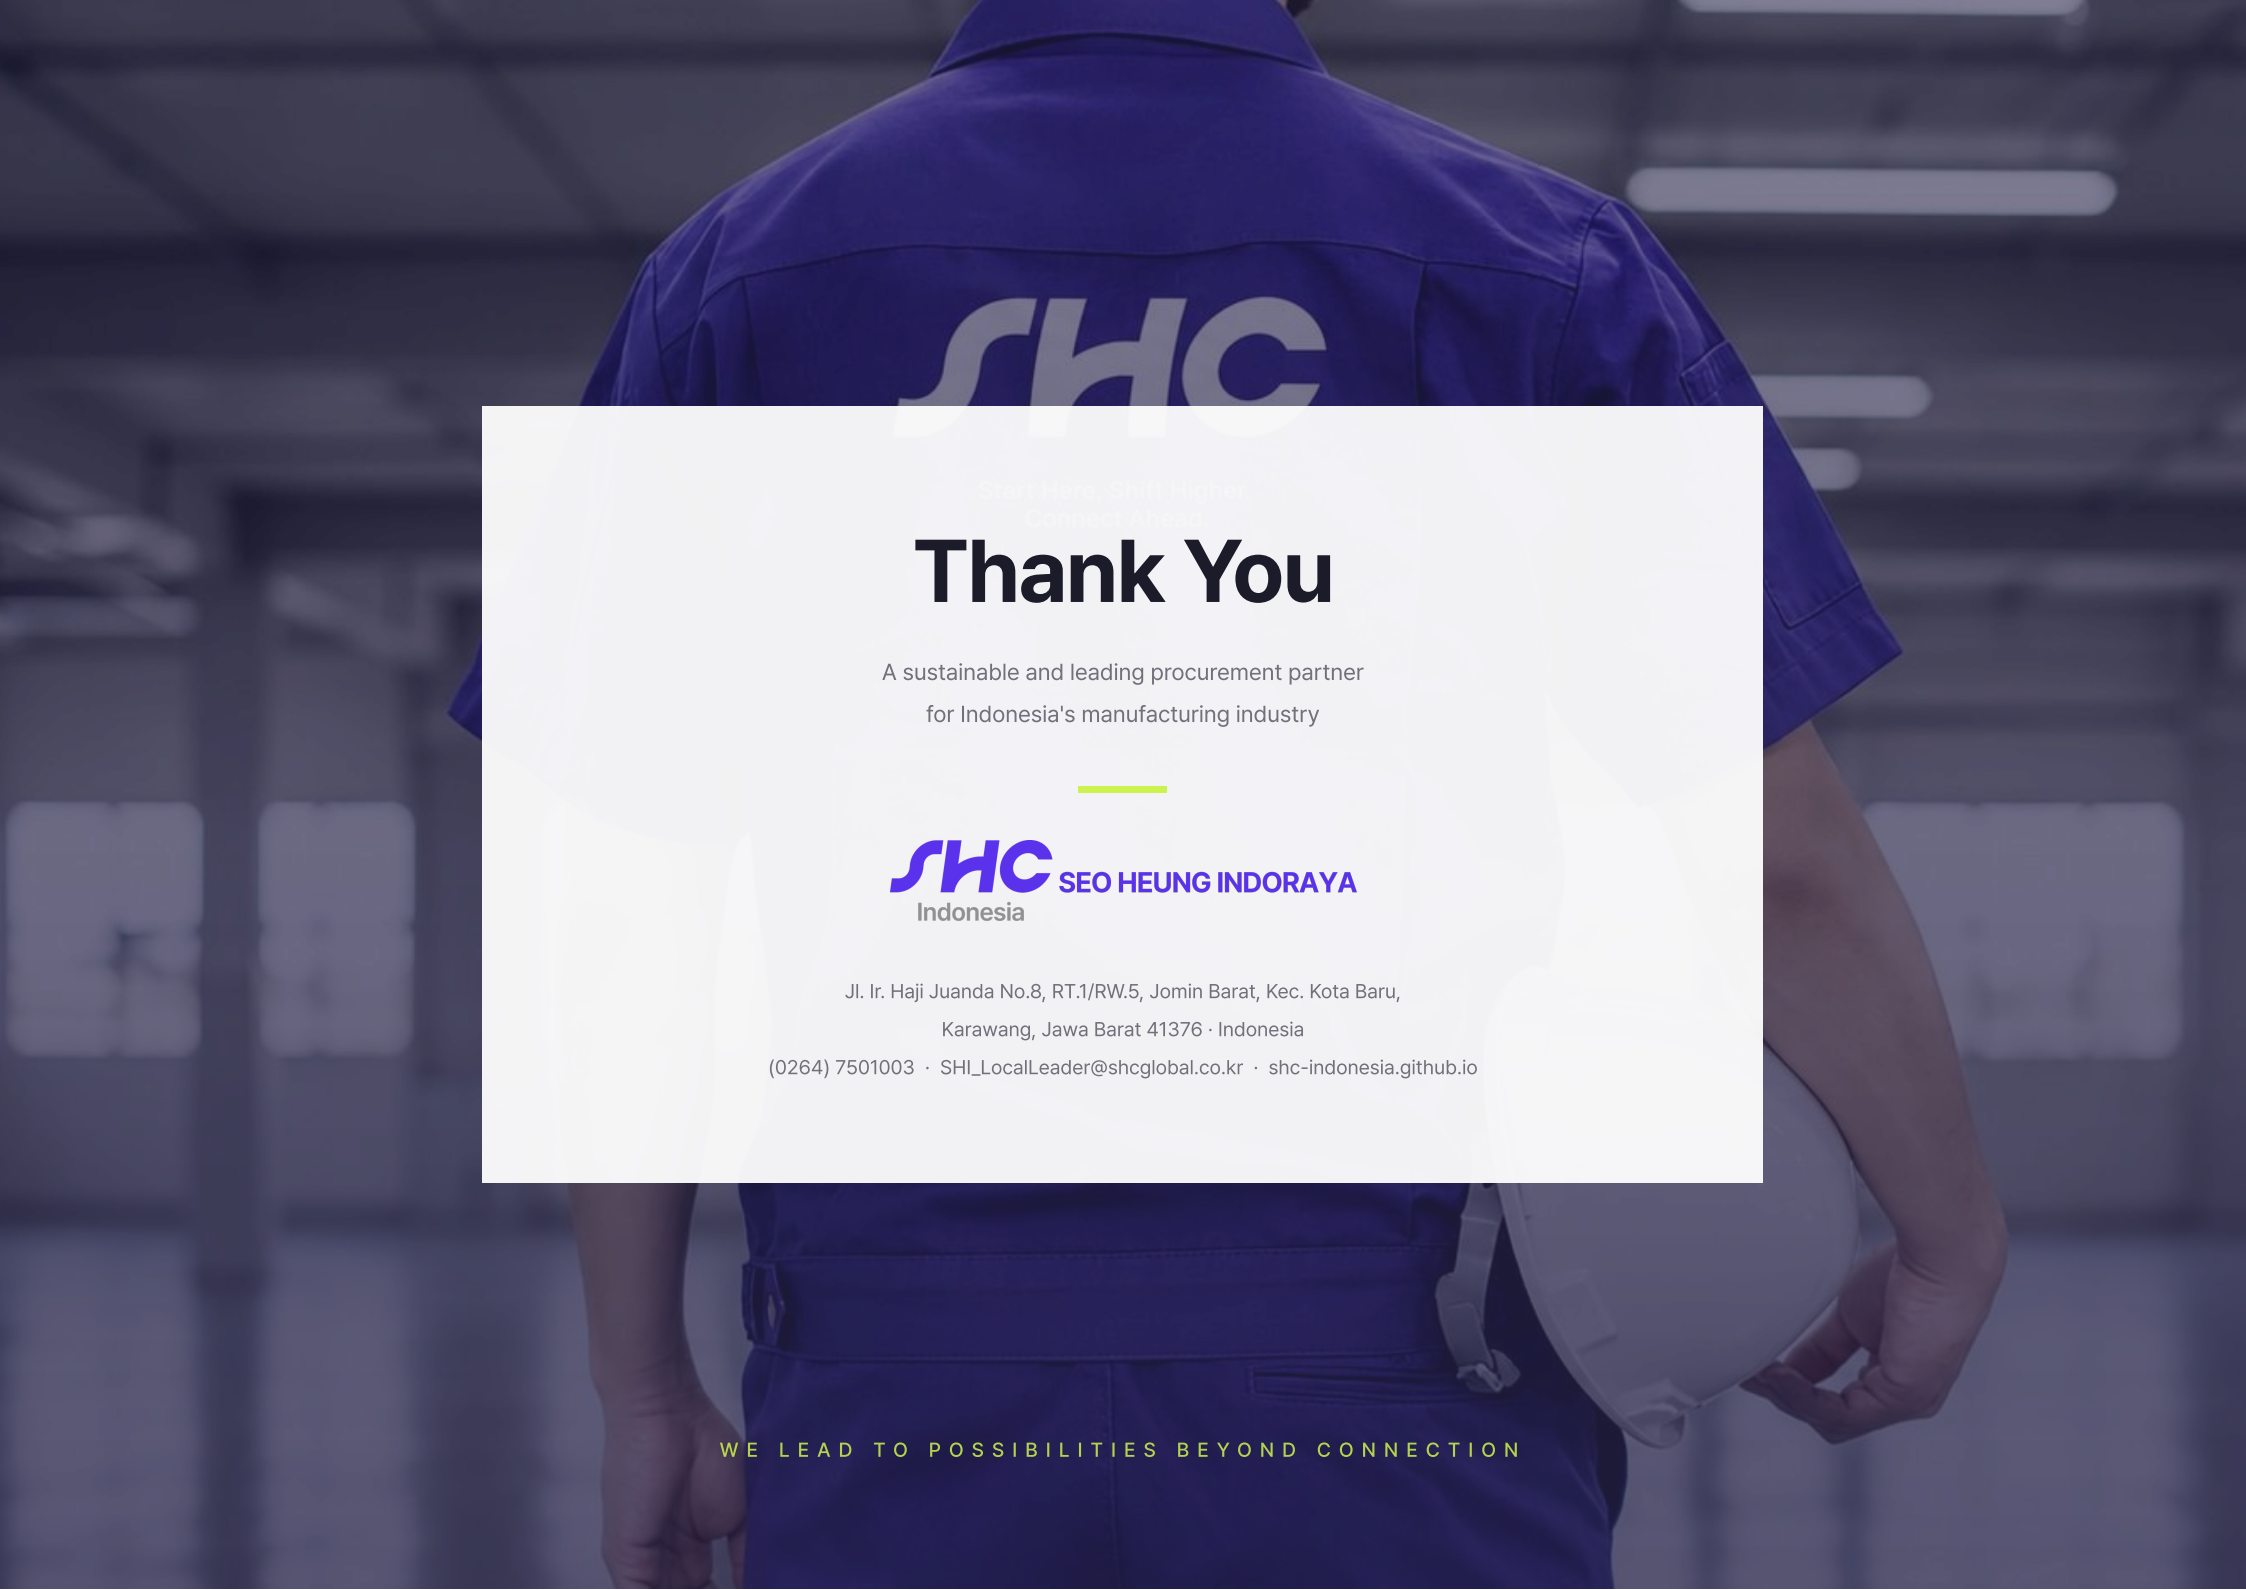

1,000 m²

Licensed PDPLB bonded warehouse in Cikarang, within reach of the Bekasi–Karawang industrial belt. Goods may be stored under bond for up to **3 years**.

Duty deferred · Lower port costs · Faster turnover · On-site re-export · Bulk import · Local safety stock · Max storage 3 years

What it changes for the plant

- Cash is not tied up in duty on stock that has not been used yet
- Import lots can be consolidated instead of shipped line by line
- Urgent items sit 40 minutes away, not four weeks away
- Re-export of rejected or surplus material handled on the same licence

Start Here, Shift Higher.
Connect Ahead.
